REGIONAL JAIL EXPERTISE

Thompson & Litton is proud to have participated in the design of every local, regional, state or federal detention facility west of Roanoke, Virginia, constructed in the last 10 years, creating 2,333 local/regional beds in the process. Five of these facilities were developed from the grass roots level as a solution to increasing inmate populations accompanied by deteriorating city and county facilities. T&L worked hand in hand with each community and municipality, the Virginia Department of Corrections, and a variety of important facilities utilizing innovative project delivery methods. T&L also has experience with Federal Correctional facilities.

Western Virginia Regional Jail

T&L acted as a subconsultant to AECOM on this project completed in 2009. It is designed to house 605 inmates within the 263,971 gross sf facility.
