RECREATIONAL FACILITIES

At Thompson & Litton, we strive to serve local communities and their residents by designing and building recreational facilities that are uniquely suited to each client. This includes working in conjunction with state and local government, public school systems, and health care centers to improve life by providing facilities that will have something for everyone.

STADIUMS

Our stadium experience ranges from baseball fields to intercollegiate football stadium complexes. The University of Virginia's College at Wise Carl Smith Stadium is an excellent example of the creativity and the specialized skill of T&L's professional team of design architects and engineers. Intensely involved from the pre-planning stages to the addition of the finishing touches, the Carl Smith Stadium is the image of excellence.

FITNESS CENTERS

The importance of providing fitness facilities for residents in our service area is of major interest to T&L. That's why we have kept the well being of our friends and neighbors in mind while designing many facilities that encourage both health and fitness.

PARKS

Who doesn't like a day at the park? T&L knows that park facilities are an amenity that brings pride to a community when designed and constructed with the clients needs in mind.

GYMNASIUMS

T&L has had the opportunity to design and construct numerous gymnasiums for public school systems. T&L takes pride in our involvement in providing the youth in our area with proper gymnasium facilities.
